Elizavecca Milky piggy galactomyces 97% 150ml → Elizavecca Milky piggy galactomyces premium 200ml

[cosmetics container] : Glass container → Plastic container (Lid is same as before. It is Alluminum)

[Capacity] : 150ml → 200ml

First, Products name and ingredient label is changed. These are comply with cosmetics laws Article 19 clause 6. (Cosmetics container Marking standard and Method)

Category 4 [mixed raw materials shall be marked as each ingredients name.

All that was indicated is indicated by the name of the individual ingredient. Concerning this, You might be think it as less than the existing ingredients.

However, Extract of ingredient are mixed raw material. So, it will be marked as each ingredients name. therefore, It is same all of things.

Efficacy and effectiveness are the same as before.

Second, Cosmetics container is change, We decided that glass containers are often damaged during shipping, so we decided to replace them with plastics with less risk of damage.

Also, Capacity was changed as 200ml. it was decided to supply 200ml because the size was small than the previous one. Price will be changed a little bit. Concerning this point , we will let you know soon.

As of now, we have stock of glass container, Plastic container products will be released after out of stock of Glass container products. If you have any inquires, do not hesitate and whenever contact us.

Always be healthy and we wish you everything you do. Thank you.
